DETAILED ACTION

Claim Objections

1. Claims 1 and 18 are objected to because of the following informalities: In line 5 of each claim, “angular” should be replaced with “angular dimensions” for clarity. Appropriate correction is required.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1 and 18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
4. Claims 1 and 18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite in that it fails to point out what is included or excluded by the claim language. This claim is an omnibus type claim. The Examiner recommends rephrasing the claim to state in line 6: “wherein the parametric values sufficiently characterize how...”. Also, the Examiner recommends stating in line 4, “determining by measurement of values from the object” in order to clarify what is being measured. It is strongly suggested that the Applicant contacts the Examiner to expedite prosecution of the case.

Response to Amendment

5. The proper form of deleting elements in a claim is to enclose the desired deleted portion in double brackets as shown: [[such as]].

Allowable Subject Matter

6. Claims 2-17 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
